

CARE PACKAGES

Since the start of the war on terror, the USO has sent over 40,000 boxes of food and toiletries to our troops overseas. Below is a list of items that are needed by our troops. The troops often carry everything with them, so please collect **travel-sized items**.

We will gratefully accept the following item donations as well as monetary donations to help defray the cost of the postage to send the boxes to our dedicated troops serving around the world. The average cost of postage for care packages is about \$11.95 per box.

You may contact our care package facility directly at the number below or our administrative office at (216) 265-3680. Or refer to our web site for a drop-off location nearest you.

Thank you for supporting our troops!
